• Funding

SPONSORED RESEARCH: All research activities performed by a department, institute, center, or other subdivision of the institution that are funded by a separately budgeted and accounted for grant or contract. Also includes, but is not limited to, National Institutes of Health research training grants with Codes T22, T32, T35 and T37; contact Sponsored Projects Services for assistance if you have NIH Training Grants in your unit. Services regularly offered and contracted for repeatedly, such as surveys, also are to be classified as sponsored research. This category also includes those activities performed under the auspices of formal research institutes and centers of the university.
New Governance Structure
