<p style="text-align: center;">COST ACCOUNTING STANDARDS BOARD DISCLOSURE STATEMENT REQUIRED BY PUBLIC LAW 100-679 EDUCATIONAL INSTITUTIONS</p>	<p style="text-align: center;">GENERAL INSTRUCTIONS</p>
<p>1. This Disclosure Statement has been designed to meet the requirements of Public Law 100-679, and persons completing it are to describe the Educational institution and its cost accounting practices. For complete regulations, instructions and timing requirements concerning submission of the Disclosure Statement, refer to Section 9903.202 of Chapter 99 of Title 48 CFR (48 CFR 9903).</p> <p>2. Part I of the Statement provides general information concerning each reporting unit (e.g., segments, business units, and central system or group (intermediate administration) offices). Parts II through VI pertain to the types of costs generally incurred by the segment or business unit directly performing under Federally sponsored agreements (e.g., contracts, grants and cooperative agreements). Part VII pertains to the types of costs that are generally incurred by a Central or Group office and are allocated to one or more segments performing under Federally sponsored agreements.</p> <p>3. Each segment or business unit required to disclose its cost accounting practices should complete the Cover Sheet, the Certification, and Parts I through VI.</p> <p>4. Each central or group office required to disclose its cost accounting practices for measuring, assigning and allocating its costs to segments performing under Federally sponsored agreements should complete the Cover Sheet, the Certification, Part I and Part VII of the Disclosure Statement. Where a central or group office incurs the types of cost covered by Parts IV, V and VI, and the cost amounts allocated to segments performing under Federally sponsored agreements are material, such office(s) should complete Parts IV, V, or VI for such material elements of cost. While a central or group office may have more than one reporting unit submitting Disclosure Statements, only one Statement needs to be submitted to cover the central or group office operations.</p> <p>5. The Statement must be signed by an authorized signatory of the reporting unit.</p> <p>6. The Disclosure Statement should be answered by marking the appropriate line or inserting the applicable letter code which describes the segment's (reporting unit's) cost accounting practices.</p> <p>7. A number of questions in this Statement may need narrative answers requiring more space than is provided. In such instances, the reporting unit should use the attached continuation sheet provided. The continuation sheet may be reproduced locally as needed. The number of the question involved should be indicated and the same coding required to answer the questions in the Statement should be used in presenting the answer on the continuation sheet. Continuation sheets should be inserted at the end of the pertinent Part of the Statement. On each continuation sheet, the reporting unit should enter the next sequential page number for that Part and, on the last continuation sheet used, the words "End of Part" should be inserted after the last entry.</p> <p>8. Where the cost accounting practice being disclosed is clearly set forth in the institution's existing written accounting policies and procedures, such documents may be cited on a continuation sheet and incorporated by reference to the pertinent Disclosure Statement Part. In such cases, the reporting unit should provide the date of issuance and effective date for each accounting policy and/or procedures document cited. Any supplementary comments needed to fully describe the cost accounting practice being disclosed should also be provided.</p> <p>9. Disclosure Statements must be amended when disclosed practices are changed to comply with a new CAS or when practices are changed with or without agreement to the Government (Also see 48 CFR 9903.202-3).</p> <p>10. Amendments shall be submitted to the same offices to which submission would have to be made were an original Disclosure Statement being filed.</p>

		UNIVERSITY OF OREGON
Item No.	Item Description (Revision Number 2; Effective Date July 1, 2007)	
1.1.0	<p>Description of Your Cost Accounting System</p> <p>The University of Oregon (UO) cost accounting system is maintained by an integrated financial accounting system, Banner Finance, also known as the Financial Information System (FIS), which operates on an accrual basis. The financial records of the university are maintained in accordance with generally accepted accounting principles (GAAP) as prescribed in applicable pronouncements of the Governmental Accounting Standards Board (GASB).</p> <p>FIS accumulates costs according to funding source, organization function, program purpose, and account code categories. Sponsored program costs are recorded directly against individual awards, each represented by an individual fund. These costs include items such as payroll, materials, and services.</p> <p>The UO is a member institution of the Oregon University System (OUS). OUS fiscal policies can be found at http://www.ous.edu/cont-div/fpm/.</p>	
1.2.0	<p>Integration of Cost Accounting with Financial Accounting</p> <p>All direct and indirect cost categories are recorded and accumulated in FIS for the university except for interest on non-proprietary funds (auxiliaries and services centers) and the university's share of centralized activities allocated by the Chancellor's Office of OUS. These costs are recorded in FIS for the OUS System Chancellor's Office.</p>	
1.3.0 Revised	<p>Unallowable Costs</p> <p>Unallowable costs are identified by a combination of A and C.</p> <p>OMB Circular A-21, Section J, identifies specific activities that are unallowable and which must be excluded during the preparation of the university's Facilities and Administrative rate proposal. Many of these activities are necessary for the operation of an educational institution and are supported by the university's operations. These costs are recognized in the accounting records and identified as unallowable on sponsored awards in compliance with the OMB Circular A-21.</p> <p>Expressly unallowable costs are identified and accumulated in the formal accounting records of the university using designated fund, organization, program, or account codes, or a combination thereof. Indirect unallowable expense in the Facilities and Administrative (F&A) expense pool are moved to the Other Institutional Activities (OIA) pool. These adjustments are made as part of the F&A cost rate study. Appropriate accounting records and supporting documents are maintained for audit and review purposes.</p> <p>Specific costs identified as unallowable and excluded from the F&A proposal are identified as follows:</p> <ul style="list-style-type: none"> Student Aid (account and organization ranges) Subcontracts >\$25K (account code ranges) 28711 Bad Debt Expense 70005 F&A Recovery 28531 Royalty Payments to Employees Interest (fines and penalties) (account code ranges) Goods for resale (account code ranges) Assessments (account code ranges)

The costs of unallowable activities are not charged to any sponsored agreement as either direct or indirect costs. Unallowable expenses of allowable indirect activities are excluded from indirect cost pools. Unallowable costs (including directly associated costs) are removed from the indirect cost pools prior to the allocation to benefiting functions as discussed in Part I, Item 1.3.0.</p> <p>Allocation Bases.</p> <p>Costs which are normally included in an indirect allocation base (as described in Part III, Item 3.5.0) will remain in that base for rate calculations and allocations, without regard to their allowability on sponsored agreements. This includes research expenses incurred under cost sharing agreements and cost overruns, which are treated as cost sharing; such costs are treated as university research and are, therefore, included in the Organized Research Modified Total Direct Cost (MTDC) base.</p>

1.5.0 Revised	<p>State Laws or Regulations</p> <p>State of Oregon Revised Statutes and Administrative Rules place restrictions on the use of state funds and also establish financial reporting requirements for various funds. The OUS fiscal policies can be found at http://www.ous.edu/cont-div/fpm/. Other areas of State regulations which influence UO's cost accounting practices include:</p> <ul style="list-style-type: none"> • The state mandates the fiscal year used by the university. • Public Employees Retirement System (PERS) contribution/benefits expense to retirees is mandated by the State of Oregon. The state also authorizes OUS to offer a defined contribution retirement plan as an alternative to PERS. Additional plans are offered other employees. (See Part VI, Item 6.1.0 which describes the university's pension plans) • As a member institution of OUS, the university follows OUS Board purchasing regulations. The university also has its own administrative rules governing purchasing and contracting. These regulations have been incorporated into the operating procedures of the university. Any changes to the regulations made by the OUS Board could influence the activities of the purchasing department and the acquisition of goods and services. See OUS Fiscal Policy Manual section 70.001, 13.01, 13.02, 13.06, 13.11, and Oregon Administrative Rule (OAR) 571-040-XXXX. • As a member institution of OUS, the university follows OUS Board travel regulations. These regulations have been incorporated into the operating procedures of the university for travel expenses, including the cost of airfare, mileage, lodging, and other subsistence expenses. Any changes to the regulations made by the OUS Board could influence the travel of employees as it relates to state or university contracts for airline travel and/or the use of other travel services. See OUS Fiscal Policy Manual section 11.0 • The OUS Fiscal Policy Manual Fixed Asset Accounting Policy (55.100, 55.105, 55.110, and 8.01) provides for depreciation on capital assets. These policies have been incorporated into the operating procedures of the university. The following assets are not depreciated: land and easements, non-depreciable land improvements, collections (museum, art and historical treasures, library special collections) and construction-in-progress. State law allows the issuance of certain debt instruments to finance the acquisition of buildings and equipment. See OUS Fiscal Policy Manual section 35.001, 35.100, and 35.200. • The State Risk Pool covers exposure to various risks of loss related to torts; theft, damage, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The university is billed for services provided through OUS and the State of Oregon Department of Administrative Services. See the State of Oregon Department of Administrative Services, Risk Management Division Self Insurance Policy Manual at http://risk.das.state.or.us/DAS/SSD/Risk/PolicyHandbook.shtml. Unemployment compensation claims are administered by the Oregon Employment Division pursuant to Oregon Revised Statutes. Actual benefits paid are reimbursed to the State's Unemployment Compensation Trust Fund. (See Part II, Item 2.6.0 which describes direct fringe benefit costs)

COST ACCOUNTING STANDARDS BOARD DISCLOSURE STATEMENT REQUIRED BY PUBLIC LAW 100-679 EDUCATIONAL INSTITUTIONS		PART II - DIRECT COSTS
		UNIVERSITY OF OREGON
Item No.	Item Description (Revision Number 2; Effective Date July 1, 2007)	
	Instructions for Part II	
	Institutions should disclose what costs are, or will be, charged directly to Federally sponsored agreements or similar cost objectives as Direct Costs. It is expected that the disclosed cost accounting practices (as defined at 48 CFR 9903.302-1) for classifying costs either as direct costs or indirect costs will be consistently applied to all costs incurred by the reporting unit.	
2.1.0	<u>Criteria for Determining How Costs are Charged to Federally Sponsored Agreements or Similar Cost Objectives.</u> (For all major categories of cost under each major function or activity such as instruction, organized research, other sponsored activities and other institutional activities, describe on a continuation sheet your criteria for determining when costs incurred for the same purpose, in like circumstances, are treated either as direct costs only or as indirect costs only with respect to final cost objectives. Particular emphasis should be placed on items of cost that may be treated as either direct or indirect costs (e.g., Supplies, Materials, Salaries and Wages, Fringe Benefits, etc.) depending upon the purpose of the activity involved. Separate explanations on the criteria governing each direct cost category identified in this Part II are required. Also, list and explain if there are any deviations from the specified criteria.)	
2.2.0	<u>Description of Direct Materials.</u> All materials and supplies directly identified with Federally sponsored agreements or similar cost objectives. (Describe on a continuation sheet the principal classes of materials which are charged as direct materials and supplies.)	
2.3.0	<u>Method of Charging Direct Materials and Supplies.</u> (Mark the appropriate line(s) and if more than one is marked, explain on a continuation sheet.)	
2.3.1	Direct Purchases for Projects are Charged to Projects at:	
	A. _____ Actual Invoiced Costs	
	B. <u> X </u> Actual Invoiced Costs Net of Discounts Taken	
	Y. _____ Other(s) ¹	
	Z. _____ Not Applicable

Item No.	Item Description (Revision Number 2; Effective Date July 1, 2007)	
	<p>Identification with a particular activity, rather than the nature of the cost, is the determining factor in distinguishing a direct cost from an indirect cost. Costs are considered direct when they can be identified specifically with a particular sponsored project, instructional activity, or similar cost objective. If a cost benefits two or more projects or activities in proportions that can be determined, the cost is allocated to the projects or activities based on the proportional benefit. Costs incurred for common or joint objectives that can neither be identified with a particular sponsored project, instructional activity, or other institutional activity, nor assigned to specific benefiting activities relatively easily with a high degree of accuracy, are charged as F & A costs.</p> <p>Costs incurred for administrative and support services that benefit departmental instructional and general activities and costs incurred by separate departments and organizations established primarily to administer sponsored projects are identified separately in the accounting records and recognized as F & A expenses. These accounts, required to recognize the expenses incurred for general departmental and institutional business, include charges for administrative and clerical salaries, related fringe benefits, supplies, postage, telecommunications, equipment, and other general costs. Specific account numbers are used to identify these activities within each department and organization.</p> <p>Academic departments and other organizational units often incur costs for both direct and F & A purposes. Costs are charged as either direct or F & A, depending upon the circumstances under which they are incurred. Costs that are normally considered F & A are treated as direct costs if the purposes and circumstances meet the following conditions:</p> <ul style="list-style-type: none"> • The cost is required by the project scope, • The cost can be specifically identified with the project, • The specific type and nature of the services are not provided by the F & A expense accounts, and • The cost is explicitly budgeted in the approved award <p>When an agency permits re-budgeting (expanded authority) for these items, if the need arises after the agreement is awarded, and the cost meets the first three criteria, the fourth criteria is not required.</p> <p>A different purpose and circumstance occurs when a particular project requires specific and identifiable support that is over-and-above the level of support provided and charged indirectly to all activities. Such costs are charged as direct costs since they are incurred for a different purpose than the common costs that are incurred as F & A costs. These types of situations include, but are not limited to, the examples provided in the following paragraphs.</p> <p>The need to charge administrative and clerical support costs as a direct charge to a sponsored project occur for projects that involve:</p> <ul style="list-style-type: none"> • Extensive data accumulation, analysis, and tabulation, or • The preparation and production of manuals, large reports, or books (beyond the usual technical report requirements), or • Extensive travel and meeting arrangements for conferences and seminars, or • Management of projects in locations that are remote from campus.

	<p>Other special circumstances for direct charging of costs occur when sponsored projects require specific support costs that are not provided by the indirect administrative accounts. Examples of instances where sponsored projects will be charged directly for support services (in accordance with the approved budget and the scope of the project) include:</p> <ul style="list-style-type: none"> • Facility alterations. If a program requires the creation of new secure facilities, including the acquisition of alarm equipment, special construction, or other project-specific facilities costs, these will be charged to the program. • Telecom charges. Telecommunications required for general and institutional business are indirect costs. Exceptions are made for long distance charges, equipment for fieldwork, calls made while traveling on project business, and for telephone instruments necessary when a sponsored agreement funds new temporary personnel positions and the positions will terminate at the conclusion of the sponsored agreement. • Postage. All postage required for general institutional business is an indirect cost. Postage that can be directly identified with a sponsored agreement, and is necessary for project performance, is charged to that agreement.

	<p>Faculty and Staff</p> <p>The university primarily uses the Plan-Confirmation Method as the basis for distribution of salaries and wages for faculty (including graduate assistants) and staff. Under the Payroll System, the distribution of salaries and wages is based on budgeted, planned, or assigned work activity, updated to reflect any significant changes in work distribution. For the Oregon State Museum of Anthropology (OSMA) specific labor hours are tracked as a basis for job costing and billing. The accounting records used to accumulate, record, and confirm salary and wage costs include:</p> <p>Personnel Information Form (PIF). This form is used during the original hire processes for employees. The PIF is also used to initiate a change in any of the general employee information tracked by this form.</p> <p>The Office of Unclassified Personnel Services issues official notice of appointment and contract for unclassified employees. The Notice of Appointment and Contract form includes the effective date of the contract, the appointment percentage, and payment agreement. The Office of Human Resources issues official notice of appointment for classified staff. The letter includes the effective date of employment, Full Time Equivalent (FTE) appointment, and payment agreement.</p> <p>Payroll Request Form (PRF)/Student Employment Form (SEF). The PRF is used to establish or change employee appointments (except for student employees) and provides the Payroll Office with information required to establish or change employee pay. The SEF is used to establish or change student employee appointments and provides the Payroll Office with information required to establish or change student pay. These forms reflect the distribution of payroll charges to each cost objective and indirect activity and control the distribution of payroll charges.</p> <p>Payroll Accounting Adjustment (PAA). This form is used for changes in the labor distribution. Any redistribution of previously paid payroll charges for personnel requires an approved PAA form.</p> <p>Earnings Request Form (ERF). This form is used to pay a limited number of staff members as described in Part II, Item No. 2.5.0; it establishes the amount to be paid and identifies the distribution of payroll charges.</p> <p>Activity Reporting System Quarterly Report. Used to confirm actual effort performed for employees under the planned confirmation method.</p> <p>Students and Temporaries</p> <p>The university uses the Payroll Distribution Method as a basis for distribution of salaries and wages for students and temporaries. Under the Payroll System, the distribution of salaries and wages is based on approved time cards or time sheets. The accounting records to accumulate and record the salary and wages include:</p> <p>Personnel Information Form (PIF). This form is used during the original hire processes for employees. The PIF is also used to initiate a change in any of the general employee information tracked by this form.</p> <p>Earnings Request Form (ERF). This form is used to pay a limited number of staff members as described in Part II, Item No. 2.5.0; it establishes the amount to be paid and identifies the distribution of payroll charges.</p> <p>Reconciliation of Salary and Wage Costs to Payroll Records</p> <p>At the end of every regular payroll (and as needed throughout the month to account for manual check activity) payroll data is posted to the financial accounting records (FIS) in accordance with accounting distributions specified in the HRIS Payroll System as based on the PRF, SEF, PAA, and ERF forms. HRIS is reconciled in total and in detail to FIS monthly, based on reports produced by HRIS. Any unusual items are investigated and corrected by the Payroll department in consultation with department. All financial managers, including Principal Investigators (PIs), have access to reports from FIS and HRIS which provide information on salary and wage costs charged to sponsored agreements.</p>

3.1.0 Revised	<p>Indirect Cost Categories – Accumulation and Allocation</p> <p>The following cost elements are not accumulated and identified in the University of Oregon’s formal accounting system:</p> <p>(a) Depreciation/use allowance/Interest</p> <ul style="list-style-type: none"> • Interest - External debt incurred for the acquisition or major renovation of buildings is issued by the Oregon University System (OUS), under authority granted by the State of Oregon. For non-proprietary funds the related transactions are recorded in the financial records of the OUS Chancellor’s Office. For proprietary units (auxiliaries and services centers) the related transactions are recorded in the financial records of the university. <p>(c) General Administration and General Expense - The university’s share of OUS Chancellor’s Office costs are not recorded in FIS; rather, it is maintained in separate records as part of the indirect cost rate negotiation. Such costs are reviewed and approved by the Division of Cost Allocation of the Department of Health and Human Services.</p> <p>(d) Departmental Administration - The departmental administration costs are those costs identified within the formal accounting system as administrative costs of all academic departments. The costs are then accumulated into five separate components:</p> <ol style="list-style-type: none"> 1) Professional Administrative salaries 2) General Support/Clerical salaries and wages 3) Faculty and Professional salaries and wages (3.6% administration allowance per A-21) 4) Prorated share of Employee Benefits 5) Prorated share of Other General Expenditures <p>A detailed explanation of how these components are accumulated is explained in 3.4.0, Departmental Administration. Consistent and equitable treatment of these costs is ensured through the use of the Direct Charge Equivalent (DCE) ratio (personnel allowance), which is also explained in detail at 3.4.0 section (d) Departmental Administration.</p>	
3.2.0 Revised	<p>Service Centers</p> <p>Other Service Centers</p> <p>Service Centers are required to operate under OUS Fiscal Policy Manual Service Center Working Capital, 05.713. “Recharge centers” at the UO are set up as recharge operations at the department level and are not required to follow the Service Center Working Capital policy. These recharge operations submit an annual fee schedule to the Office of Budget and Resource Planning (BRP). A listing of the fees is on the BRP website.</p> <p>Veterinary Services (Animal Care Facilities) charges a higher rate to customers outside OUS. Telecom charges higher rates to external customers and lower rates to sponsored projects (federal government).</p>

5.1.0	<p>Method of Charging Leave Costs</p> <p>The university accrues a liability for vacation leave and other compensated absences that were earned but not used during the current or prior fiscal year for which employees can receive compensation in a future period. Sick leave is recorded as an expense when paid. The university does not record a liability for unused sick leave because there is no payout provision of unused sick leave for employee terminations. The accrual is not charged directly to sponsored projects.</p> <p>The university has several agreements where the awarding agency demands reporting and billing for actual hours worked. The contracted hourly rates have been adjusted to include an allowance for vacation, sick, and holiday accruals. All other leave costs for sponsored projects are charged on cash basis.</p> <p>Sabbatical leave costs are not charged directly to sponsored agreements. Such costs are included in administrative costs and allocated to benefiting cost objectives, including sponsored agreements, as F&A costs.</p>
